## Shipping Information

We strive to bring you the best products at the best values. We ship with only the best carriers available to ensure that your product gets to you safely and at a reasonable cost. We charge based on specific weight of your purchase to provide you the best value.

Orders placed by 2:30 p.m. EST are shipped the same day.

If you would like to inquire about placing and shipping a bulk order please feel free to contact us in the following ways:

Email: [info@zolandist.com](mailto:info@zolandist.com)

Toll Free: (866) 994-7060

## Return Policy

Things happen and products sometimes will need to be returned. Products purchased from Zola Distributing may be returned as long as the items are new, unused and returned within 30 days of purchase. The customer is responsible for the return shipping costs and a 15% restocking fee if the item is not defective and they simply want to return it. Zola Distributing will pay the return shipping costs if the return is the result of an error on our part or if the item(s) you received were defective or incorrect.

Please email us at [returns@zolandist.com](mailto:returns@zolandist.com) first before returning any items. We wish to expedite this process and letting us know that items are being returned will enable us to process the return quickly. Once we receive your email, we will email you the RA# and return shipping instructions.

Once the items are received into our warehouse, you should expect to receive a credit to the card the order was placed on within 30 days. This time frame includes inspection time, internal processing time and credit card processing time.

By using Zola's color codes, you can quickly find the tools you need for your specific market.

**OLFA BLADE SNAP OFF DISPOSAL CASE**

Do not let your discarded blades become a danger to you or others. Snap them off in this convenient Olfa blade disposal case. This case can be used for both 8 and 13 point blades.

**KB984** **A** **F** **W** **P**

**NT A-1000RP 5-BLADE ALLOY KNIF**

The NT A-1000RP is the world's first, and NT's original, 5 blade knife. Fast 5 blade system for the professional who frequently uses blades.

**KB264** **A** **F** **W** **P**

**KDS GRIP-FIT HEAVY DUTY KNIFE**

This is a great choice in a heavy duty knife. Coupling a locking feature with a terrific ergonomic grip makes tough cutting jobs a cinch.

**KB1031** **W** **P**

**OLFA ULTRAMAX CARBON STEEL 13 POINT BLADES (50 Pack)**

These blades are double honed to give you maximum cutting performance. When only the sharpest will do, reach for these blades. (Not for use on glass)

## KB262 **A** **F** **W** **P**

### KDS STAINLESS STEEL 13 POINT BLADES WITH FINE HONE (50 PACK)

This knife gives you a 13 point blade knife option at a very attractive price. If you tend to lose your knives regularly, this may be a great option for you.

## KB1020 **A** **F** **W** **P**

### NT STAINLESS STEEL BLADES 13 POINT (50 PACK)

These NT stainless blades may be the sharpest 13 point stainless steel blades available. These blades are a great choice for anyone that values an extremely sharp initial cutting edge.

## KB123 **P**

### OLFA CARBON STEEL BLADES 13 POINT (50 PACK)

Standard carbon snap-off blades. Great for general purpose cutting. (Not for use on glass)

## KB265 **A** **F** **W** **P**

### KDS STAINLESS STEEL 13 POINT BLADES WITH STANDARD HONE (50 PACK)

These KDS 13 point stainless steel blades may just be the best bang for your buck on the market today. This blade was designed specifically for the window tint industry. This is a great blade with a standard hone for good initial sharpness coupled with solid edge durability.

**Note: All knives come with carbon blades. These are not stainless steel and can scratch glass. Please discard and insert a stainless blade before using this knife on glass.**

## KB114 **A** **F** **P**

### OLFA PRO-LOAD 5-BLADE CARTRIDGE KNIFE

Too busy to change blades? Olfa has you covered with the Pro-load 5-Blade Cartridge Knife. This knife conveniently holds 5 blades that allow you to keep working instead of changing blades. Comes with a sleek handle that houses the extra blades and still allows precision feel.

## KB115 **A** **F**

### OLFA STAINLESS STEEL BLADES 13 POINT (10 PACK)

New package, same great blades. The Olfa stainless steel 13 point blades are the standard by which all other blades are judged. They combine awesome sharpness and very durable edge retention in one blade. That is the reason they have been a favorite in the window tinting community.

## KB116 **A** **F** **W** **P**

### OLFA STAINLESS STEEL BLADES 13 POINT (50 PACK)

New package, same great blades. The Olfa stainless steel 13 point blades are the standard by which all other blades are judged. They combine awesome sharpness and very durable edge retention in one blade. That is the reason they have been a favorite in the window tinting community.

**A** Automotive Window Film

**F** Flat Glass

**W** Vehicle Wraps

**P** Paint Protection Film

Trim anywhere and never worry about cutting a vehicle's paint again with these knifeless tapes by Knifeless Tech Systems!

Knifeless tapes are state-of-the-art new products that make doing difficult, innovative installs a snap without ever touching a knife blade to a vehicle's paint! These tapes are extremely flexible and turn smoothly in any direction, conforming to even the tightest contours and edges of any surface they are applied to or can be pulled straight, creating precise cut lines.

## TRILINE9MM

### KNIFELESS TAPE9MM (TRI-LINE 50 METER ROLL)

## TRILINE

### KNIFELESS TAPE (TRI-LINE 50 METER ROLL)

The TriLine Tape is manufactured with ultra-fine filament to create cuts for striping, accents and designing.

- The cut produced will rival a knife or plotter
- You can break the tape with your hands making it faster to apply
- Filament and tape are made to stretch slightly together, working similar to pin striping

## FINISH LINE

### KNIFELESS TAPE - FINISHLINE (TRI-LINE 50 METER ROLL)

3.5 mm (1/8" nominal) width

- Use for most wrap applications
- Conformable around bumpers, door handles, mirrors, etc.

## DESIGNLINE

### KNIFELESS TAPE (DESIGN LINE 50 METER ROLL)

The DesignLine Knifeless Tape is a new tap that can be used to cut graphic film. DesignLine is made to stretch, enabling the professional installer to maneuver the tape into tighter curves and, when stretched tight, allows for straighter more precise lines.

- Allows stretching, follows contours and turns easily in any direction
- Excellent for creating designs and stripes with no extra steps required to achieve a perfect cut

**Please visit [www.knifelesstechsystems.com/HowToUse.aspx](http://www.knifelesstechsystems.com/HowToUse.aspx) to learn more tricks on how to use these knifeless tapes!**

**HC2002**    
**4" BLACK MAGNETIC BONDO CARD**

Wow!! What a simple, but innovative card that any installer would want at their disposal. This bondo card can be used to smooth out vinyl graphics and wraps like any standard card that you are already using. The difference with this card is the magnets that are molded inside of the card. These magnets allow you to stick the card onto the surface of the car for positioning of material as well as just keeping the card close at hand while working the vinyl. Give this great card a try and you will be wondering why someone did not think of this idea a long time ago.

**HC080**     
**4" 3M BLUE BONDO CARD - MED/HARD**

Similar to popular 3M Gold Bondo, this 3M Blue Bondo card is made from less expensive base materials to offer an economic alternative. The difference between 3M's Gold Bond and this card is durability and the ease in which the card glides across the material. While 3M Gold Bondo is preferred among many window tinters, this card is still a favorite among many window film installers.

**HC087**    
**4" LIDCO YELLOW BONDO CARD - MED**

This bondo card from Lidco is very similar to the 3M Blue Bondo card. It is economically priced and works well with a variety of materials. This bondo card will not be quite as durable or glide as easily across the material being installed as with the 3M Gold Bondo card or the Lidco Gray Bondo card, but it is still a favorite among many window tint and vinyl graphics installers.

**Place your order toll free  
 866-994-7060 or online  
[www.ZolaTools.com](http://www.ZolaTools.com)**

**HC087GRAY**    
**4" LIDCO GRAY BONDO CARD  
 MED/HARD**

**HC087-6GRAY**    
**6" LIDCO GRAY BONDO CARD  
 MED/HARD**

The Lidco Gray Bondo cards are similar in construction to the 3M Gold Bondo card. Their unique base resin allows these cards to glide across window film and vinyl graphic material easily.

**HC079**    
**4" 3M GOLD BONDO CARD - MED**

The 3M Gold Bondo is a stand-out installation tool for the window film and vinyl graphics industries. This tool is formulated out of a special resin that enables it to be durable and glide easily across the material being installed. Give the 3M Gold Bondo a try and learn why many view this as a must have installation tool.

**HC099**     
**4" UNIVERSAL BONDO CARD - MED**

This economical bondo card can be used for the installation of many types of materials including window tint, vinyl graphics and vehicle wraps.

**HC1064**   
**4" LIDCO BONDO CARD  
 WITH FELT EDGE**

This tool combines the popular Lidco 4" bondo card and a felt edge installed on one side to give you a great automotive window film tool.

Place your order online [www.ZOLATOOLS.com](http://www.ZOLATOOLS.com) or call **866-994-7060**

 Automotive Window Film

 Flat Glass

 Vehicle Wraps

 Paint Protection Film

**HC086-6Y** **A** **F**  
**6" YELLOW TEFLON HARD CARD SQUEEGEE - MED**

**HC086-6B** **A** **F**  
**6" BLACK TEFLON HARD CARD SQUEEGEE MED/HARD**

**HC086-6W** **A** **F**  
**6" WHITE TEFLON HARD CARD SQUEEGEE MED**

This is a very versatile Teflon card in a larger size.

The Yellow Teflon's larger size enables it to contour to surfaces easily. This card can also be used effectively as a trim guide for flat glass window film installations.

The Black Teflon hard card is more flexible than the White Teflon card. The softer material makes it ideal for use on all types of window tint installation. This card would be too soft for use heat shrinking window film.

The white hard card can be used for heat shrinking, bumping edges and chizling. Many tinters cut these cards into various shapes to make them even more useful. This is a window tinting tool "must have".

**SAME DAY SHIPPING**  
**ON ORDERS SUBMITTED BEFORE 2:30 PM EST**

**HC2323** **A** **F**  
**6" LIDCO EZ GRIP**

**HC2322** **A** **F**  
**4" LIDCO EZ GRIP**

Save the fatigue on your hands! The Lidco EZ Grip gives you something more substantial to grab onto. Works with any bondo card. Just slide it onto the card to create a much better grip.

**HC1010** **A** **W** **P**  
**3M WET & DRY RUBBER SQUEEGEE**

This 3M Wet & Dry rubber squeegee is terrific for making initial smoothing passes on window film, laying down paint protection films and squeegeeing out vinyl and texture graphic films.

**HC068** **A** **W**  
**TEFLON & BONDO HARD CARD SHARPENER**

Extend the life of all the Teflon and Bondo cards that you own. This clever tool takes a very thin slice off the edge of your rough or nicked cards, restoring a clean factory edge. The sharpener uses standard 13 point blade segments, making blade changes convenient and inexpensive.

**HC149** **A**  
**12" WHITE SQUEEGEE WITH BLACK RUBBER EDGE**

**HC148** **A**  
**6" WHITE SQUEEGEE WITH BLACK RUBBER EDGE**

This window film tool is an installer favorite. The tool has a medium flex, thin resin body combined with a soft rubber squeegee edge. The thin body helps you reach into tight spaces for either a final squeegee swipe or to lay down film. This tool comes in a 6" and 12" size to suit installer's tastes.

## HC092 **A** **F**

### THE SHUTTLE CORNER TOOL

The Shuttle has been in the window tint industry for a long time because it works. The Shuttle comes with a 10" body and a variety of different angles to get into nearly any corner or tight spot in an automobile. Try one today and find out what many window tinters have known for years.

## HC032Y **A**

### TAIL FIN SQUEEGEE - YELLOW MED/HARD

## HC032G **A**

### TAIL FIN SQUEEGEE - GREEN - MED/SOFT

The Tail Fin is designed with a negative curve to enable consistent blade pressure on the window film in tight areas where you may not be able to angle the blade properly. Measuring nearly 12" at the blade, the Tail Fin has become an auto tinter's favorite tool for getting behind 3rd brake lights. The Tail Fin comes in two hardness levels to suit installer preferences.

## HC033 **A** **F**

### RED DEVIL TRIM & CORNER TOOL

Like many installation tools in the window tinting industry, the Red Devil corner tool was not originally designed for window tint installation. However, many resourceful installers determined that this tool could be used to access very tight areas to lay down film. Also, many flat glass installers found that it makes a great trim guide tool as well. The Red Devil comes with an 8" long body and pointed tip design.

## HC1025PLT **A** **W** **P**

### REBEL HARD CARD - PLATINUM - HARD

## HC1025W **A** **W** **P**

### REBEL HARD CARD - WHITE - MED/HARD

## HC1025Y **A** **W** **P**

### REBEL HARD CARD - YELLOW - MED

The Rebel Hard Card is an angled "bondo" style card that works great for getting into tight areas, behind gaskets or rubber seals. Window tinters have been trimming bondo and teflon hard cards for many years in an attempt to get them into these areas. Now you can buy a tool that comes pre-cut with the angles you need.

## HC1049 **A**

### BUCKEYE BLADE - HARD

The Buckeye Blade 1 is a revolutionary improvement from the Lil' Chizler. This unique tool allows the user to apply pressure to a concentrated area for everything from laying down a stubborn little finger to removing adhesive around delicate defroster lines. Plus, the contoured design makes working on curved surfaces a breeze.

## HC1050 **A** **W** **P**

### BUCKEYE BLADE 2 - HARD

This ultra cool tool can be used for laying down touch spots as well as lifting gaskets to tuck the film on roll downs. This tool is certain to become an installer favorite and a permanent part of your tool pouch.

**A** Automotive Window Film

**F** Flat Glass

**W** Vehicle Wraps

**P** Paint Protection Film

## HC086GLD **A** **F**

### 4" GOLD TEFLON HARD CARD SQUEEGEE MED/HARD

The Gold Teflon card is harder than the Black Teflon, but slightly softer than the White Teflon card. This particular window tinting tool is a great choice for heat shrinking and final edge bumping for water extraction.

## HC086PINK **A** **F**

### 4" PINK TEFLON HARD CARD SQUEEGEE MED

The Pink Teflon hard card is softer than the White Teflon making it an ideal choice for use on metallic and ceramic window films.

## HC086BLK **A**

### 4" BLACK TEFLON HARD CARD SQUEEGEE MED

The Black Teflon hard card is more flexible than the White Teflon card. The softer material makes it ideal for use on all types of window tint installation. This card would be too soft for heat shrinking window film.

## HC086PURPLE **A** **F** **P**

### 4" PURPLE TEFLON HARD CARD SQUEEGEE - MED/HARD

The Purple Teflon was created with a new blend designed to give you the ideal fusion of stiffness and flexibility. The card seems to be stiff in all the areas that you want it to be and still retain flexibility when that is required. This is a must try card for any window tinter!

Place your order toll free  
**866-994-7060** or online  
**www.ZolaTools.com**

## HC086 **A** **F**

### 4" WHITE TEFLON HARD CARD SQUEEGEE MED/HARD

The standard 4" version of the window film industry standard in Teflon cards. This versatile hard card can be used for heat shrinking, bumping edges and chiseling. Many tinters cut these cards into various shapes to even make them more useful. This is a window tinting tool "must have".

## HC086PLAT **A** **F**

### 4" PLATINUM TEFLON HARD CARD SQUEEGEE - HARD

The Platinum Teflon was created when some tinters were asking for something harder than the White Teflon card. This is the hardest Teflon card available. It is ideal for heat shrinking and bumping the edges.

## HC086BLU **A** **W** **P**

### 4" BLUE TEFLON HARD CARD SQUEEGEE MED/SOFT

The Blue Teflon is much softer than the other Teflon hard cards. This tool is used primarily for paint protection film and vinyl graphic installations or when tinting areas of extremely curved glass.

## HC081 **A** **F** **P**

### 4" SQUARE CORNERS ORANGE BONDO

The 4" Square Corner Lidco Orange Bondo can be used as an installation squeegee or wrap it in a soft towel to bump edges dry. Useful for either window film or paint protection film. This bondo has square corners unlike the traditional 4" Lidco Orange Bondo.

**HC1065** **A** **F** **W** **P**

**4" FELT SLEEVE FOR BONDO CARDS**

This convenient felt sleeve can make nearly any 4" bondo card more user friendly when it comes to installations on paint protection films and vinyl graphic vehicle wraps.

**HS034** **A**

**WHALE TAIL SQUEEGEE COMPLETE**

This large (nearly 12" wide) squeegee blade with handle allows for an easy reach into the back deck area of most cars. The thin blade design allows it to slide easily behind 3rd brake lights for easier window film installations.

**HC067** **A** **F**

**SPEHAR CLEAR SUPER SQUEEGEE - SMALL (3")**

**HC995** **A** **F**

**SPEHAR WHITE KNIGHT HARD CARD**

This hard card is one of the stiffest available. With a unique design to fit into tight spaces for laying down film or chizling, this window tinting tool deserves a spot in your arsenal.

 **follow Zola on facebook**  
[facebook.com/zola.tools](https://facebook.com/zola.tools)

**HC066** **A**

**SPEHAR CLEAR SUPER SQUEEGEE -MED (6")**

**HC1066** **A** **F** **W** **P**

**6" FELT BONDO SLEEVE**

Have the benefits of a felt edge with any 6" bondo squeegee. This sleeve slides right over your existing bondo cards. Great for paint protection film installations. Felt edge is much less apt to scratch the film during installation. (Bondo card seen in the image is not included)

**HC2324** **A** **F**

**4" SPEHAR SMOKE CARD**

Malleable polyurethane squeegee for a truly custom tool. With a heat gun you can easily shape the squeegee material to create the perfect tool for your needs.

**HC038** **A**

**SPEHAR CLEAR SUPER SQUEEGEE -LARGE (12")**

These flexible polyurethane window film installation tools offer the unique ability for the installer to customize the shape of the tool. When held in the desired position and heated with a heat gun, these tools will retain the desired shape when cooled down. These come in a 3", 6" and 12" size to suit almost any installer need.

## HC1068R **A F W P**

GO DOCTOR HANDLED INSTALLATION SQUEEGEE - RED - SOFT

Welcome to the future of window tint handled installation squeegees. This 8" long and 5" wide tool is the perfect size for most applications. The Go Doctor's signature I-beam handle fits comfortably in your hand and the unique frame construction was specifically designed to transfer more of your energy to the blade's point-of-contact. The result is greater squeegee efficiency and reduced installer fatigue. In addition, the I-beam handle is wrapped with a comfortable, non-slip material that provides secure grip in all conditions. Finally, the Go Doctor incorporates a quick-change blade system allowing the installer to quickly change damaged blades or switch to a different squeegee firmness on demand. All three Go Doctor blades will fit in this handle to make this one of the most versatile tools available.

## HC2042Y **A**

TRI-EDGE HARD CARD - YELLOW - MED

## HC2042OR **A**

TRI-EDGE HARD CARD - ORANGE MED/HARD

This tool has the latest technology that helps apply window film with ease. Its patented design, high-quality materials make this tool one of a kind. Its precision angles and comfort grip will allow the user to reach those challenging areas to achieve perfection. This tool has been analyzed and closely inspected to ensure that the finish is smooth; no more rough edges. This technology is estimated to greatly reduce the risk of potential scratches when applying the film.

## HC2043 **A**

TRI-EDGE PLUS ORANGE

Introducing the Tri-Edge Plus. The perfect design of the Tri-Edge Orange just got better. We have replaced a hard edge with a rubberized heat resistant material that will serve as a water squeegee. The rubberized blade was carefully designed to create a dry line on the glass at the bottom of the film. Our design team has found the solution to help prevent dusty water returning to any open bubble. No more paper towel!

# SAME DAY SHIPPING ON ORDERS SUBMITTED BEFORE 2:30 PM EST

**HC1000** **A** **F** **W** **P**  
**MACTAC FELT SQUEEGEE**

This Mactac felt squeegee is fast becoming a favorite of PPF, vinyl graphic wrap and high-end window film installers. This squeegee will glide across the material without creating an undesired amount of surface friction which can smear the adhesive layer causing distortion. If you are installing paint protection films, vinyl wraps or high end window films, you owe it to yourself to give this tool a try.

**HC1070** **A** **F** **W**  
**SMART CARD PLATINUM**

Welcome to the future! This Smart Card is the next generation of the hard card. This tool is 25% larger than your typical hard card. It features an ergonomic design, just the right amount of flex and a tapered tip. Use this tool for installation, getting behind gaskets and seals, bumping edges, etc. This just might be the smartest card in your apron!

**HC1070F** **A** **F** **W** **P**  
**SMART CARD PLATINUM WITH FELT EDGE**

This great new smart card has an ergonomic shape with an integrated felt edge for easy gliding on vinyl graphics and paint protection films.

**HC2300** **A** **F**  
**WET EDGE SQUEEGEE**

Zola Distributing now carries the Wet-Edge Ultra Suede Teflon Squeegee!

Wrap your vehicles faster and better. The only squeegee applicator made to use wet. No scratches, no marks, just smooth motions that easily glides across vinyl films and painted surfaces without worry of mistakes or damage. The WetEdge Squeegee is a Teflon squeegee with a unique microfiber edge bonded to it. Can be used either wet or dry. This is the top of the line applicator in the business!

**HC2005M** **A** **F**  
**SMART CARD MANGO**

Smart Cardz are a contemporary version of the traditional hard card...but better, because they are 25% wider and have a comfortable grip and thin edge. This is THE New & Improved teflon hard card.

**HC2005** **A** **W** **P**  
**SMART CARD MANGO WITH FELT EDGE**

This Mango Smart Card will make you the smartest tinter on the block! An integrated felt edge makes this a terrific tool for high performance window tint heat shrinking as well as paint protection film and vinyl graphic installations.

**P** Paint Protection Film

**HC2008** **A** **W** **P**

**4" MANGO BONDO CARD WITH FELT EDGE**

This is a new take on an old favorite! This 4" Mango Bondo card has a felt edge integrated to make this a terrific tool for high performance window tint heat shrinking. This tool also works great for paint protection film and vinyl graphic installations.

**HC2007** **A** **W** **P**

**LITTLE FOOT SQUEEGEE - MANGO WITH FELT EDGE**

This Mango Little Foot Squeegee comes with a felt edge integrated to make this a terrific tool for high performance window tint heat shrinking as well as paint protection film and vinyl graphic installations.

**HC1086** **F** **W**

**YELLOW SMART CARD MINI**

**HC2008M** **A** **F** **P**

**4" MANGO BONDO**

The 4" Mango Bondo can be used as an installation squeegee or wrap it in a soft towel to bump edges dry. Useful for either window film or paint protection film.

**HC2007M** **A** **F**

**MANGO LITTLE FOOT**

The Mango Little Foot is the middle of the line in flexibility and hardness of all the Little Foots. The 6" pointed blade is perfect to get into those hard to reach spots. If this one is a little too soft or too stiff there are three other options to fill your tinting needs.

**HC1086F** **A** **W**

**YELLOW SMART CARD MINI WITH FELT**

Smart Card Mini's are a contemporary version of the traditional Chizler or Plastic Razor Blade...but better because they are wider and have a more comfortable grip and thin edge. This is THE New & Improved Plastic Scraper Blade.

**HC2006** **A** **W** **P**

**REBEL HARD CARD - MANGO WITH FELT EDGE**

This Mango Rebel Hard Card comes with a felt edge integrated to make this a terrific tool for high performance window tint heat shrinking as well as paint protection film and vinyl graphic installations.

**HC2006M** **A**

**MANGO REBEL - MED**

The new Mango Rebel is a cross between a Bondo Card and Diamond Tip Card. The ribs in the middle of the card provide a better grip than traditional installation cards and the angled design allows for added reach in some of the more difficult installation areas.

**HC200** **A** **F**  
EZ REACH HARD CARD - GOLD - MED

**HC200PLT** **A** **F**  
EZ REACH HARD CARD - PLATINUM  
MED/HARD

This is the newly updated design on what has become a window tint industry favorite. The new design features a flat portion on the top to make the tool more ergonomic in your hand. Also, the elimination of the center hole makes the tool more rigid across the nose. The EZ Reach hard card comes in two hardness levels.

**HC2003** **A** **F**  
THE ORIGINAL GOLD EZ REACH

**HC2003PLT** **A** **F**  
THE ORIGINAL PLATINUM EZ REACH

This tool has been a window tint industry favorite for many years and allows the installer to get to those hard to reach corners. Recently, the mold was revised and many people were clamoring for the old design. As a result, we are bringing back the original design in both the Gold and the Platinum versions.

**HC202** **A** **F** **W** **P**  
THE "ORIGINAL" YELLOW  
CONQUERER SQUEEGEE

The Conquerer has been around for over a decade and is still a staple for almost all automotive window tint installers. Don't be fooled by imitation products with similar names, the Conquerer is the ORIGINAL and still the best. An updated design now fuses the squeegee blade onto the tool body to eliminate the blade tearing away from the body as was common in the original design. The Conquerer's unique design combines a terrific window tint squeegee blade on one side and a pointed hard card tip on the other for pulling back gaskets, chizing film, etc. This window film industry standard comes in the original Yellow blade for most window tint applications.

**HC201G** **A** **P**  
CONTOUR SQUEEGEE - GREEN  
MED/SOFT

**HC201Y** **A** **W**  
CONTOUR SQUEEGEE - YELLOW - MED

**HC201PLT** **A** **P**  
CONTOUR SQUEEGEE - PLATINUM  
MED/HARD

The Contour has quickly become an automotive window tinting favorite. This tool's unique design enables it to naturally disperse the window film finger tension to enable fingers to be smoothed out in tough areas. The Contour tool comes in three hardness levels to satisfy any window tinter's tastes.

**HC151** **A** **F**  
QUICK FOOT - YELLOW - MED/SOFT

**HC151B** **A** **F**  
QUICK FOOT - BLUE - MED

**HC151W** **A** **F**  
QUICK FOOT - WHITE - MED/HARD

The Quick Foot is quickly becoming a window tinting industry favorite. This tool is thin through the body allowing access behind the 3rd brake light and into tight rear deck and windshield spaces. This tool comes in three hardness ratings for any application.

**HC1042** **A**  
TITAN TOOL - RED

The original Titan Tool has been discontinued by the manufacturer and replaced by their NEW RED Titan Tool. This new version provides you a longer stiffer alternative to the Conquistador. With a blade length of 14 $\frac{3}{4}$ " inches overall, the Red Titan Tool allows you to get into those hard to reach back window decks. With increased strength at the tip of the the tool you can push out more water than with the old design. The uniquely designed handle allows you to easily lift inner and upper door seals. Try the Red Titan Tool today!

**HC083** **A** **W** **P**  
THE ORIGINAL LIL' CHIZLER - MED/HARD

What needs to be said about this tool? The Lil' Chizler has been helping window film installers get to hard to reach areas for over a decade. This is a must have in any window tinter's tool pouch.

**HC083Y** **P**  
THE YELLOW CHIZLER - SOFT

The Yellow Chizler is the softest of the Chizlers and is great for paint protection installs.

**HC088** **A** **F** **P**  
YELLOW BONDO SPREADER

This super flexible bondo card for tint installations was brought back by special request. This thin spreader gets into tight spots with ease.

This old favorite can be used as an installation squeegee or wrap it in a soft towel to bump the edges dry. Useful for either window film or paint protection film.

**HC083W** **A** **W** **P**  
THE WHITE CHIZLER - HARD

The White Chizler is slightly larger than the Original Lil' Chizler. It's also is harder and has thicker edges than the original. This tool is ideal for "chizling" out tiny creases in the film. It can also be used for film, decal and adhesive removal.

**HC044** **A**  
LITTLE FOOT SQUEEGEE - RED - MED

**HC044BLK** **A**  
LITTLE FOOT SQUEEGEE - BLACK  
MED/HARD

**HC044BLU** **A**  
LITTLE FOOT SQUEEGEE - BLUE  
MED/SOFT

The Little Foot squeegee is the younger sibling of long time window tinting favorite the Big Foot. The Little Foot is a great tool for getting into tight, hard to reach corners. The Little Foot window tinting squeegee comes in three hardness ratings to suit most installer's tastes.

**HS043** **A**  
**BIG FOOT SQUEEGEE**

The Big Foot window tint installation squeegee is designed to reach the bottom areas of back glass windows in automobiles. The Big Foot allows the installer to apply the necessary pressure to lay down the tint in those tight, rear window areas. One of the original back glass tools and a must for every installer's tool box!

**HS040** **A**  
**SLIM FOOT SQUEEGEE**

The Slim Foot was modeled after the Big Foot Squeegee, but with a more slender design to reach into tighter areas of the rear deck. This no rib on the installation end of the squeegee which allows access behind 3rd brake lights. The Slim Foot also features a vinyl grip for secure handling.

**HS091** **A**  
**SLAMMER**

This window tinting standby is used for everything from cleaning out corners and along gaskets to laying down film in hard to reach areas. It can also be used to wick water out along window borders. The sharp angle allows access to many tight spots, unreachable by other tools.

**HS208** **A**  
**SIDE SWIPER HANDLE ONLY**

The famous Side Swiper handle without the Blue Max insert included. This handle uses Side Swiper Replacement Squeegee Blade (HS118-6) sold separately. Using an easily replaceable Blue Max blade insert, the Side Swiper is ideal for getting behind 3rd brake lights and in the corner of lower rear deck areas on automotive tint jobs.

**HS207** **A**  
**SIDE SWIPER COMPLETE**

The Side Swiper is one of the hottest window tint installation tools on the market today. Using an easily replaceable Blue Max blade insert, the Side Swiper is ideal for getting behind 3rd brake lights and in the corner of lower rear deck areas on automotive tint jobs.

**HS1022** **A**  
**STROKE DOCTOR HANDLED SQUEEGEE**

The Stroke Doctor handled squeegee is a new and innovative design that enables a window tinter to easily reach into the hard areas of the rear deck. This tool is narrow enough to fit behind many 3rd brake lights making tinting these areas much easier.

**HS2314Y** **A** **F**  
**GRIP & GLIDE YELLOW (90 DUROMETER)**

**HS2315Y** **A** **F**  
**GRIP & GLIDE YELLOW (BLADE ONLY)**

**HS2314OR** **W** **P**  
**GRIP & GLIDE ORANGE (85 DUROMETER)**

**HS2315OR** **W** **P**  
**GRIP & GLIDE ORANGE (BLADE ONLY)**

Get a grip on a better squeegee – the new Grip-N-Glide. It combines an ergonomic handgrip with high-performance, interchangeable blades to give you just what you need for tint, wrap and PPF installations.

Unlike tube squeegees with their belt-sanded round edges, the Grip-N-Glide features .24" edge tip blades are machine milled for maximum water extraction. And you can use either the firm yellow 90A or softer orange 85A blade to meet your application needs. The blades fit snugly into a frame that is covered by a sturdy handgrip designed with comfortable finger grooves and a special surface texture to provide the ultimate control in either wet or dry use.

Order your Grip-N-Glide today, and glide right into the next generation of squeegees.

**F** Flat Glass

**W** Vehicle Wraps

**P** Paint Protection Film

**HS050** **A** **F**

### UNGER PRO SQUEEGEE HANDLE

The Unger Pro Handle now features a rubber-coated, versatile squeegee handle that will work with many different squeegee blade arrangements. From using a Clear Max, Blue Max or Orange Crush to using the standard stainless steel channeled blades with either the soft black rubber insert (for glass prep & cleaning) or Blue Max insert (for film installation) this handle can do it all.

**HS050E** **A** **F**

### UNGER ERGONOMIC SQUEEGEE HANDLE

The Unger Ergonomic Squeegee handle features a spring mechanism for quick blade changing from cleaning to installing window film. This squeegee handle also has a finger indent on top of the handle to give the installer complete control. This handle is for use with steel blade channels HS053-HS056 and either the black rubber inserts for cleaning or blue urethane inserts for window film installation.

**HS118-6** **A** **F**

6" BLUE MAX SQUEEGEE BLADE ONLY

**HS118-8** **A** **F**

8" BLUE MAX SQUEEGEE BLADE ONLY

**HS118-12** **A** **F**

12" BLUE MAX SQUEEGEE BLADE ONLY

**HS118-18** **A** **F**

18" BLUE MAX SQUEEGEE BLADE ONLY

**HS118-120** **A** **F**

120" BLUE MAX SQUEEGEE BLADE ONLY

This is replacement Blue Max squeegee blade inserts for stainless steel channels used in the Unger Pro and Unger Ergonomic handles. This squeegee material is superior for window film installation.

**HS204** **A** **F**

### SUPER CLEAR MAX BLADE WITH HANDLE

Ready-to-use window film installation squeegee that uses an Angled Clear Max Blade (HS203A) and specially modified Unger Pro handle that eliminates the latch on the underside of the handle. The modified handle is not available for sale but replacement blades can be purchased separately as HS203A.

**HS053** **A** **F**

6" BLACK SQUEEGEE BLADE WITH CHANNEL

**HS054** **F**

8" BLACK SQUEEGEE BLADE WITH CHANNEL

**HS055** **F**

12" BLACK SQUEEGEE BLADE WITH CHANNEL

**HS056** **F**

18" BLACK SQUEEGEE BLADE WITH CHANNEL

These are stainless steel channels with soft black squeegee rubber inserts. These squeegee blades are for use with the Unger Pro (HS050) and Unger Ergonomic handle (HS050E). These squeegee blades work great for glass cleaning and for a final clean-up of the window to remove any smudges left after the window film installation.

**HS045** **A** **F**

42" BLACK SQUEEGEE BLADE ONLY

**HS048** **A** **F**

12" BLACK SQUEEGEE BLADE ONLY

**HS049** **A** **F**

18" BLACK SQUEEGEE BLADE ONLY

This is a replacement soft rubber squeegee blade for stainless steel channels. This squeegee blade material is best for glass cleaning and post window film installation clean-up.

**HS062** **F**  
**6" PRO HANDLE POWER SQUEEGEE**

The 6" Power Squeegee comes as a ready-to-use assembly. Used to remove mounting solution for flat glass window film installations.

**HS063** **F**  
**6" REPLACEMENT BLADE FOR PRO HANDLE POWER SQUEEGEE**

Replacement squeegee blade for the 6" Pro Handle Power Squeegee (HS062).

**HS206** **F**  
**BULLDOZER FLAT GLASS SQUEEGEE**

The Flat Glass Bulldozer handled squeegee features extended reinforced ribs on the back side for extra rigidity and leverage. This squeegee is terrific for squeegeeing window film tucked behind frames and columns on flat glass jobs where there is not enough space to reach in with a traditional squeegee handle. Includes a 6" squeegee blade and is 15" in overall length.

**HS064** **F**  
**8" PRO HANDLE POWER SQUEEGEE**

The 8" Pro Handle Power Squeegee comes as a ready-to-use assembly. Used to remove mounting solution for flat glass window film installations. The larger squeegee blade surface increases window film installation speed on larger glass panels.

**HS061** **F**  
**8" REPLACEMENT BLADE FOR PRO HANDLE POWER SQUEEGEE**

Replacement squeegee blade for the 8" Pro Handle Power Squeegee (HS064).

**HS205** **A**  
**BULLDOZER AUTOMOTIVE SQUEEGEE**

The Automotive Bulldozer handled squeegee allows a tinter to get at those hard to reach areas, such as behind speakers and brake lights in the rear deck areas and into the bottom of very low angle rear windows. Features a 6" squeegee blade and is 15" in overall length.

**HS2316** **A** **F**  
**NYLON TOOL "SPATULA"**

A brand new tool to the window tint industry. The "Spatula" has a 3" wide blade with a reach 12" reach for those tough rear window installs. Made of a chemical resistant, flexible and virtually unbreakable nylon material.

**HS2317** **A** **F**  
**PLASTIC TOOL "PADDLE"**

The "Paddle" boasts a 3" wide beveled blade with 13½" of reach for those tough rear window installs. Made from a durable hard plastic that is still slightly flexible for maximum water removal.

**HS225** **A** **F**  
**PLASIC KNIFE "THE SHANK"**

This "Shank" may at first glance resemble an ordinary plastic knife, but it is definitely a tough, useful tucking tool. This new tool has an offset installation tip for reaching behind gaskets while keeping your hands out of the way. It is 7" in overall length with approximately 3" of flexible blade. Made of lightweight, yet extremely durable plastic, it is great for tucking film behind those tight door gaskets.

## HS1046 **F**

### 8" FUSION HANDLE

The 8" Fusion handle features a light weight composite handle and comfortable cushioned grip to make residential and commercial flat glass applications a snap. (Use with squeegee blade HS259)

## HS1047 **A** **F**

### 5" FUSION HANDLE

The 5" Fusion Handle features a composite body for light weight and nice cushioned grip for your comfort. Great for high performance automotive films and smaller flat glass jobs. (Holds HS257, HS258, HS117, HS117A and HS117B squeegee blades)

## HS1058 **A**

### 5" FUSION SHORT HANDLE

The 5" Fusion Short Handle features a composite body for light weight and nice cushioned grip like the standard 5" Fusion Handle, but comes with a shorter handle to allow easier use in tight spaces. The shorter length makes it ideal for automotive applications. (Holds HS257, HS258, HS117, HS117A and HS117B squeegee blades)

## HS117 **A** **F**

### 5" BLUE MAX SQUEEGEE BLADE WITH BEVELED EDGE - MED

The Blue Max is the original 5" beveled squeegee and still considered by many in the window tinting industry to be the best blade available. The Blue Max is harder than the Orange Crush or the Clear Max making it terrific at removing mounting solution from high performance and ceramic window films. (Use with HS1047 or HS985 handles)

## HS117B **A** **F**

### 5" BLUE MAX SQUARED SQUEEGEE BLADE - MED

This Blue Max blade offers all the great features on the standard Blue Max blade with angled sides to get into tight areas. (Use with HS1047 or HS985 handles)

## HS203 **A**

### 5" SUPER CLEAR MAX SQUEEGEE BLADE MED

This squeegee blade has softer durometer than the Orange Crush and Blue Max squeegee blades. The softer blade of the Clear Max allows this tool to conform to curved glass making it ideal for back window applications. (Use with HS057, HS1047 or HS985 handles)

## HS117-8 **F**

### 8" BLUE MAX BLADE WITH BEVEL - MED

Now available in the larger 8" size, the Blue Max is the original beveled squeegee and still considered by many in the window tinting industry to be the best blade available. The Blue Max is harder than the Orange Crush or the Clear Max making it terrific at removing mounting solution from high performance and ceramic window films. (Use with HS1046 handle)

## HS203A **A**

### 5" SUPER CLEAR MAX SQUEEGEE BLADE WITH ANGLE CUT - MED

This squeegee blade has softer durometer than the Orange Crush and Blue Max squeegee blades and combines an angled edge cut to reach into tighter spaces. The softer blade of the Clear Max also allows this tool to conform to curved glass making it ideal for back window applications. (Use with HS057, HS1047 or HS985 handles)

## HS117A **A** **F**

### 5" BLUE MAX SQUEEGEE BLADE ANGLE CUT - MED

This Blue Max blade offers all the great features on the standard Blue Max blade with angled sides to get into tight areas. (Use with HS1047 or HS985 handles)

**HS122** **A**  
**BLUE MAX SQUEEGEE BLADE WITH INTEGRATED HANDLE - MED**

Ready-to-use handled installation squeegee uses an Angled Blue Max Blade (HS117A) and specially modified Unger Pro handle that eliminates the latch on the underside of the handle. The modified handle is not available for sale but replacement blades can be purchased separately as HS117A. Because of the handle modification, this unit is sold as is.

**HS1006** **F**  
**THOR'S HAMMER**

The Thor's Hammer is strongly recommended when installation of 6 mil and greater security window film is being installed. This tool allows for the window film installer to gain extra leverage with a stiffer squeegee blade which assists in the removal of mounting solution with thicker window films. Removal of the maximum amount of mounting solution will assist in decreased drying times.

**HS257** **A** **F**  
**5" ORANGE CRUSH / FUSION SQUEEGEE MED**

The Orange Crush blade is a nice durometer for removing mounting solution from all types of film applications while remaining supple enough to conform to glass curvature. (Use with HS057, HS1047 or HS985 handles)

**HS985** **A** **F**  
**PERFORMAX SQUEEGEE HANDLE**

This cast alloy handle with a foam grip is good when water extraction is an issue for a window film installation. This squeegee handle features a internal threaded handle that accepts standard threaded extension handles such as broom or paint roller extensions. This feature allows window film installers to get more leverage by using two hands while squeegeeing. (Holds HS257, HS258, HS117, HS117A and HS117B squeegee blades)

**HS117C** **F**  
**5" BLUE MAX SQUARED NARROW SQUEEGEE BLADE - MED**

When dealing with safety window films of 6 mil or greater, it is imperative that the squeegee blade has very little flex to facilitate adequate mounting solution removal. The narrow design allows less squeegee blade to protrude from the handle which serves to stiffen the blade. This Blue Max blade was designed specifically for these safety film applications and should be considered a must for any substantial security window film work. (This blade is specifically designed for use in HS1006 handle)

**HS258** **A**  
**5" ORANGE CRUSH / FUSION ANGLED MED**

All the great features of the standard Orange Crush blade with angled edges to get into tight areas. (Use with HS057, HS1047 or HS985 handles)

**HS259** **F**  
**8" ORANGE CRUSH / FUSION SQUEEGEE MED/HARD**

Same great Orange Crush but in a larger size to tackle flat glass applications. (Use with HS1046 handle)

**TS2304**    
**5.5 INCH RED INSTALLATION SQUEEGEE  
 MED**

**TS2305**    
**5.5 INCH ORANGE INSTALLATION  
 SQUEEGEE - HARD**

**TS2306**    
**5.5 INCH GREEN INSTALLATION  
 SQUEEGEE - SOFT**

Zola's new line of 5.5 inch installation squeegees are sure to become the industry standard. With three different hardness levels and a slick, smooth surface, this squeegee removes water well while still being able to glide effortlessly across the film.

Zola's new squeegees feature an ergonomic comfortable groove on handle side, wider edge and bright easy to find colors.

As an added bonus and convenience, our new squeegee is cut on the handle side to perfectly fit the Unger Pro Squeegee for window tint/flat glass installations. This feature eliminates any wobbling or movement of the squeegee for quick and perfect film installations. Our installers have also used these as handheld squeegees on Paint Protection Film installations with great success and are quickly becoming the preferred squeegee for PPF installs. With the flexibility to be used with the Unger Pro Handle for window film installations and the ability to be used without the Pro Handle for Paint Protection Installs, Zola's new squeegee is the ultimate dual-purpose installation tool!

**TS1026**      
**3.5" YELLOW TURBO INSTALLATION  
 SQUEEGEE**

This tube squeegee is the industry standard. With a great medium hardness and slick surface, this squeegee removes water well while gliding effortlessly across the film.

**TS236**    
**5.5" YELLOW TURBO INSTALLATION  
 SQUEEGEE BLADE ONLY**

This yellow turbo / tube squeegee is a window tint industry standard. With a great medium hardness and slick surface, this squeegee removes water well while still gliding effortlessly across the window film.

Note: This squeegee comes as a blade only. If you would like the white handle, please order TS235.

**TS235**    
**5.5" YELLOW TURBO INSTALLATION  
 SQUEEGEE**

This yellow turbo / tube squeegee is a window tint industry standard. With a great medium hardness and slick surface, this squeegee removes water well while still gliding effortlessly across the window film.

**TS254**   
**BLUE POWER STROKE SQUEEGEE - HARD**  
 The Blue Power Stroke Squeegee is the hardest of the Power Stroke family of turbo squeegees. This squeegee would be a terrific installation tool for metal and ceramic automotive window films. This tool measures 5.7" from tip to tip.

**TS255**     
**RED POWER STROKE SQUEEGEE - MED**

The Red Power Stroke Squeegee is the medium hardness unit of the Power Stroke family of turbo squeegees. This squeegee would be a terrific installation tool for most automotive window films, thicker vinyl graphics and automotive wraps. This tool measures 5.7" from tip to tip.

**TS256**     
**YELLOW POWER STROKE SQUEEGEE  
 SOFT**

The Yellow Power Stroke Squeegee is the softest of the Power Stroke family of turbo squeegees. This squeegee would be a terrific installation tool for dyed automotive window films, paint protection films, vinyl graphics and automotive wraps. This tool measures 5.7" from tip to tip.

# SAME DAY SHIPPING ON ORDERS SUBMITTED BEFORE 2:30 PM EST

## TS145 **A** **F**

### 18 1/2" YELLOW TURBO INSTALLATION SQUEEGEE

This yellow turbo / tube squeegee is a window tint industry standard. With a great medium hardness and slick surface, this squeegee removes water well while still gliding effortlessly across the window film.

## TS147 **A** **F**

### 18 1/2" YELLOW TURBO INSTALLATION SQUEEGEE BLADE ONLY

This yellow turbo / tube squeegee is a window tint industry standard. With a great medium hardness and slick surface, this squeegee removes water well while still gliding effortlessly across the window film.

Note: This squeegee comes as a blade only. If you would like the white handle, please order TS145.

## TS146 **A** **F**

### 28" BLACK TURBO CLEANING SQUEEGEE (BLADE ONLY)

These squeegees should primarily be used for cleaning a window surface prior to a window tint installation. They are very soft and adhere to the glass surface well for removal of all water and debris. However, because of this softness, they do not make good window tint or graphic installation squeegee tools as they will leave too much mounting solution trapped under the surface of the film.

Note: This squeegee comes as a blade only. If you would like the white handle, please order TS121.

## TS2004 **A** **P**

### 18 1/2" GREEN TURBO INSTALLATION SQUEEGEE BLADE ONLY

The popular turbo style squeegee is now available in a softer, green variety. This softer turbo has proven to be terrific for paint protection film installations. This can also be used on thin, dyed automotive window tint as the softer durometer will make it more difficult to crease the film.

This turbo comes in the 18.5" length to allow you to cut it into convenient shapes and sizes for your installation preferences. Try one today!

## TS119 **A** **F**

### 4" BLACK TURBO CLEANING SQUEEGEE

## TS120 **A** **F**

### 9" BLACK TURBO CLEANING SQUEEGEE

## TS121 **A** **F**

### 28" BLACK TURBO CLEANING SQUEEGEE

These squeegees should primarily be used for cleaning a window surface prior to a window tint installation. They are very soft and adhere to the glass surface well for removal of all water and debris. However, because of this softness, they do not make good window tint or graphic installation squeegee tools as they will leave too much mounting solution trapped under the surface of the film.

## TS150 **A**

### 18 1/2" RED TURBO INSTALLATION SQUEEGEE

## TS152 **A**

### 5" RED TURBO INSTALLATION SQUEEGEE

Fast becoming a window film industry favorite, the Red Turbo Squeegee has all the great attributes of the yellow turbo squeegee in a slightly harder material. This makes it a terrific choice for metallic and ceramic automotive window tint installations.

 follow Zola on  
**facebook**  
[facebook.com/zola.tools](https://facebook.com/zola.tools)

## TS155 **A** **F**

### 18 1/2" ORANGE TURBO

The 18.5 inch Orange Turbo can be cut down to any size you like. It is slightly harder than the Yellow Turbo so it helps to eliminate more water. It also works better on the ceramic films. The Orange Turbo is great for installing automotive window tint, paint protection films and vinyl applications.

**SOFT GRIP RETRACTABLE RAZOR  
 SCRAPER**

This durable 1" soft grip razor scraper features a convenient retractable blade to stow it safely when not in use. The small design makes it ideal for small jobs. (Uses any standard 1" single edge razor blade)

**SR212** **A** **F**  
**1" BLADE AID SCRAPER**

Basic plastic mini scraper for small jobs. (Uses any standard 1" single edge razor blade)

**SR140-12** **A** **F**  
**1" SINGLE EDGE #12 BLADES (100 PACK)**

.012" (#12) carbon 1" single edge razor blades. These blades have a slightly thicker design than the .009" (#9) blades to reduce flex.

**SR140** **A** **F**  
**1" SINGLE EDGE #9 BLADES (100 PACK)**

.009" (#9) carbon 1" single edge razor blades. (100 Pack)

**Place your order toll free  
 866-994-7060 or online  
 www.ZolaTools.com**

**SR139** **A** **F** **W**  
**1" PLASTIC SINGLE EDGE RAZOR BLADES  
 (100 PACK)**

Plastic razor blades are terrific for removing window film, vinyl graphics, adhesive or dirt from easily damaged surfaces such as glass with defroster or radio lines. (100 Pack)

**SR137** **A** **F**  
**1" GEM SINGLE EDGE STAINLESS STEEL  
 BLADES (100 PACK)**

GEM brand stainless steel, single edge razor blades. (100 Pack)

**SR109** **A**  
**1" HANDLED CLIP SCRAPER**

A very effective scraper for reaching small or hard to reach areas. The blades snap in and out of the clip holder easily for a fast blade change. (Uses any standard 1" single edge razor blade)

## SR106 **A** **F**

### 6" TRIUMPH HEAVY DUTY SCRAPER

This heavy duty version of the popular 6" Triumph scraper is ideal for tough window film removal jobs. (Uses Triumph SR110 blades)

## SR107 **A** **F**

### 6" TRIUMPH SCRAPER

This is the standard Triumph 6" Scraper that is used for cleaning and scraping. This scraper comes with a safety cover for the blade when not in use. (Uses Triumph blades SR108 & SR108SS)

## SR107A **A** **F**

### 6" TRIUMPH ANGLED SCRAPER

This is essentially the standard Triumph 6" Scraper with a 30 degree angled head for better ergonomics and to apply more leverage. (Uses Triumph blades SR108 & SR108SS)

## SR107PC **A** **F**

### 6" TRIUMPH SLIDE COVER SCRAPER

This is the new and improved version of the 6" slide covered Triumph scraper. With a bigger button and smoother action, the cover easily opens and closes with no hassle. No more fumbling with a separate blade cover, this design is safer and more convenient, especially when doing ladder work. (Uses Triumph blades SR108 & SR108SS)

## SR983 **A** **F**

### 6" TRIUMPH SOFT HANDLED SCRAPER

Same great design of the standard Triumph scraper that you have always loved, but with a new soft grip handle for increased comfort. (Uses Triumph blades SR108 & SR108SS)

## SR983A **A** **F**

### 6" TRIUMPH SOFT HANDLED ANGLED SCRAPER

Coupling the 30 degree angled head for better ergonomics and increased leverage with the new soft grip handle. This updated Triumph scraper is sure to be your new favorite. (Uses Triumph blades SR108 & SR108SS)

## SR108 **F**

### 6" TRIUMPH SCRAPER BLADES (25 PACK)

These are standard, carbon replacement blades for any 6" Triumph Scraper. (25 Pack)

## SR108SS **F**

### 6" TRIUMPH STAINLESS SCRAPER BLADES (25 PACK)

These stainless steel Triumph scraper blades are designed to be used with any 6" Triumph scraper. (25 Pack)

## SR110 **F**

### 6" TRIUMPH HEAVY DUTY SCRAPER BLADES (10 PACK)

These blades are thicker and designed for tough removals. (For use with Triumph scraper SR106)

Place your order online [www.ZOLATOOLS.com](http://www.ZOLATOOLS.com) or call

## SR104 **A** **F**

### 4" ALLWAY SCRAPER WITH 12" HANDLE

This is a nice 4" Allway scraper designed with a 12" handle for extra leverage when working on tough window film removals. (Uses SR105 & SR1007 blades)

## SR105 **A** **F**

### 4" SCRAPER BLADES (10 PACK)

Carbon steel 4" scraper blades designed to be used in most 4" scraper handles. (10 Pack)

## SR210 **A** **F**

### 3" TRIUMPH MINI-SCRAPER

A smaller, 3" version of the Triumph scraper designed to get into small areas and corners. (Uses Triumph blades SR211)

## SR211 **A** **F**

### 3" TRIUMPH MINI-SCRAPER BLADES (10 PACK)

These 3" blades are designed specifically to be used in the 3" Triumph Mini-Scraper. (10 Pack)

**CL085** **A** **F**  
**WHITE GLASS SAFE SCRUB PAD**

The white scrub pad is the standard cleaning pad most window tinters use. It is safe for use on glass and is great for cleaning any contaminants from the glass surface prior to window film installation.

**CL085THK** **A** **F**  
**THICK WHITE GLASS SAFE SCRUB PAD**

This thicker white scrub pad is made of the same great, glass safe material as the original, but in a thicker pad for greater durability. This pad is safe for use on glass and is great for cleaning any contaminants from the glass surface prior to window film installation.

Please note that the pad only looks discolored in the photos so that it shows up better against a white background. The pads you will receive will be whitish cream in color. It is shown in the picture beside a standard pad so that you can see the difference in thickness between the two pads.

**CL071** **A** **F**  
**SUPER PREP "VIRTUALLY LINT FREE" TOWELS**

Prep for your window tint job professionally with these Super Prep cloth like towels. Conveniently packaged with 300' in a self dispensing box. Increase the cleanliness of your next window film job by trying a box of Super Prep towels today.

**CL090** **A** **F** **W** **P**  
**32 OZ. SPRAYMASTER TRIGGER SPRAYER**

This is a chemical resistant 32 oz. sprayer that comes with a 5-year manufacturer's guarantee. Comes with a white labeling box to keep your chemicals organized. It does not get nicer than this in a trigger sprayer.

**Place your order toll free 866-994-7060 or online [www.ZolaTools.com](http://www.ZolaTools.com)**

**CL070** **A** **F** **W** **P**  
**CONTINUOUS ROLL LOW LINT TOWELS**

These low lint paper towels are a must for a perfect window tint job. This roll measures 8" wide by 605' long and is perforated every 11" for your convenience. Why spend more time and money using store bought paper towels that will shed lint and ruin an otherwise flawless tint job?

**CL097** **A** **F** **W** **P**  
**32 OZ. BOTTLE FOR USE WITH TRIGGER SPRAYER**

This is a standard 32 oz. bottle for use with any universal trigger sprayer nozzle like our Adjustable Trigger Sprayer Nozzle (CL098N).

**CL098N** **A** **F** **W** **P**  
**ADJUSTABLE TRIGGER SPRAYER NOZZLE (NOZZLE ONLY)**

As a result of a major trigger sprayer supplier going out of business, we have had to change to this new unit. We tested many trigger sprayers from other manufacturers before deciding on this very nice universal trigger head that fits both 16oz. and 32oz. bottles.

Please Note: The dip tube on the replacement trigger unit will need to be trimmed a bit shorter to fit the smaller bottles perfectly.

Place your order online [www.ZOLATOOLS.com](http://www.ZOLATOOLS.com) or call **866-994-7060**

## CL1008 **A** **F** **W** **P**

### 48 OZ. IMPACT JR. PUMP-UP SPRAYER

The Impact Sprayer's great design and overall durability have this pump-up sprayer becoming a window film industry favorite.

## CL1008LN **A** **F** **W** **P**

### IMPACT REPLACEMENT NOZZLE

This replacement nozzle is for the Impact Jr (CL1008). Unfortunately, sometimes when your sprayer drops to the floor, it lands on the nozzle and breaks... leaving your sprayer garbage. This nozzle puts your sprayer back to work for you.

## CL102 **A** **F**

### 3 GALLON PUMP-UP SPRAYER WITH 16' HOSE

This bottle convenient 3 gallon design and 16' hose make it perfect for either residential/ commercial or automotive window film installations. This bottle also features a Smith Sprayer Nozzle with a brass fan-type spray tip. Replacement pump assemblies for this unit are available below.

## CL101-H **A** **F**

### 5 GALLON STAINLESS STEEL SPRAYER WITH 25' COILED HOSE

This deluxe pressurized sprayer holds up to 5 gallons of mounting solution in a stainless steel tank. This favorite of residential and commercial window tinters everywhere features a coiled 25' hose to enable you to reach a large area without having to move the tank. Operation is simple. Just fill the tank with desired solution and pressurize with air from any compressor. A relief valve will prevent over-pressurization of the unit. Once you try a 5 Gallon Stainless Sprayer, you will never want to use a trigger or pump sprayer again.

## CL101N **A** **F** **W** **P**

### 5 GAL. STAIN. STEEL SPRAYER REPLACEMENT NOZZLE ONLY

This is a direct replacement nozzle for the 5 Gallon Stainless Steel Sprayer shown below.

## CL101-HG **A** **F** **W** **P**

### 25' REPLACEMENT HOSE COMPLETE FOR 5 GALLON STAINLESS STEEL SPRAYER

This is a complete replacement hose and nozzle set from our popular 5 Gallon Stainless Steel Sprayer. If you damaged or break the hose on your unit in any way, this is a direct replacement to the original.

## CL102P **A** **F**

### REPLACEMENT PUMP ASSEMBLY FOR 3 GALLON PUMP-UP SPRAYER

This is the replacement pump assembly complete for our popular 3 Gallon Pump-Up Sprayer with 16' Hose. If your sprayer does not pump up quite as quickly as it once did, try this replacement assembly to make it as good as new.

## CL2015 ▲ ▲ ▲

### JIFFY J4000W STEAMBLADE STEAMER

Zola Tools is pleased to offer the SteamBlade by Jiffy Steamer. The SteamBlade is an innovative product designed to simplify the removal of window film, vinyl wrap and lettering. With the swipe of the SteamBlade, the warm, moist steam quickly and safely unbinds the glue from the window, simplifying this once tedious task. The SteamBlade will allow you to remove window film, vinyl wrap or lettering in a fraction of the time of conventional methods. Put down the razor and reach for the Steam.

Quickly remove window film, vinyl wrap and lettering without chemicals, razor blades or the frustration commonly associated with this tedious task!

Put Down the Razor and Pick Up the Steam!

- Quick 15-minute heat-up time to PREHEAT mode, allowing you to maintain the steamer's temperature until you need it
- Go from PREHEAT mode to full STEAM power in just 2 minutes
- Flexible 7.5" hose for easy maneuverability on the job
- Angled 9" aluminum steam head concentrates steam into a targeted area for precise removal
- Large 1 gallon internal water reservoir provides 2 hours of continuous steam before refilling
- Easily view water levels and sediment buildup at a glance with the built-in sight gauge
- Comes with 1 pair size LARGE protective gloves
- Solid Die-cast outer Housing for Durability
- All Brass Couplings
- 1,500 Watt Heating Element
- 50/60 Hertz Electrical System
- On/Off Switch
- 304 Stainless Steel Internal Boiler Tank
- Preheat and Steam Settings
- Auto Shut-off for Safety
- Best in the industry 3-year warranty
- Manufactured in the USA

## CL922 ▲ ▲ ▲ ▲

### PRESSURE ON DEMAND (P.O.D.) STEAMER

The Pressure on Demand (P.O.D) system is specifically designed to make paint protection film installations much easier. Designed to release the precise amount of steam at a temperature that will not burn you or harm the paint protection material. The steam makes the material more pliable to enable the film to comply to difficult contours. This steamer also gives you the ability to correct mistakes without having to waste a valuable piece of film. If you are a paint protection film installer, this is a must have tool. The P.O.D. works on all brands on paint protection films.

### THE SCRUBBER

The Scrubber measures in at over 12" long to allow you easy access into the tightest of areas. This is a must have tool for most automotive window tinters. Avoid the visit to the chiropractor by putting a Scrubber in your tool box today!

## CL096 **A** **F** **P**

### 2 QUART POLY 2 PUMP SPRAYER

The original and still one of the best, the Poly 2 Sprayer is a window tint industry favorite. Many have tried to dethrone the Poly 2, but the ergonomic design, great pressure retention and durability make it the #1 choice for window tinters everywhere.

## CL921 **A** **F** **W**

### JIFFY J2W STEAMER

The Jiffy J2W Steamer is a commercial grade steamer that is impact resistant and uses 1300 watt heating element. Heats up in 2 minutes with 2 hours of steaming from a full bottle.

This is a must have tool for removing window film and adhesive from back windows where defroster and radio lines can be damaged by trying to remove baked on film. Steamers are increasingly being used to assist in paint protection film installation as well.

The Jiffy J2W features include:

- Quick 2 minute Heat Up time
- All Brass Couplings
- 1300 Watt Heating Element
- 50/60 Hertz Electrical System
- Auto Shut off system for Safety
- On/Off Switch
- Cleans Surfaces with the Power of Steam
- Made in the USA

(Note: This is a 120 volt model. 220 volt models are available as a special order)

**AD075** **A**  
**WHITE FILM MARKER**

This White Film Marker is handy for three basic purposes:

- 1) Marking window film prior to installation on windows with unusual shapes (arches, trapezoids, etc.) which must be cut to approximate shape before the final "lay-up".
- 2) Circling a contaminate (hair or fiber) before pulling back the film to remove it.
- 3) Marking tint edges to check for glass movement on side roll-ups during the trimming process.

Markings quickly wipe away when desired.

**AD076** **A** **F**  
**WINDOW FILM OPAQUER - THIN POINT**

**AD077** **A** **F**  
**WINDOW FILM OPAQUER - BROAD POINT**

This popular window tinting tool is used by installers to hide small mistakes in trimming which cause a light gap at the edge of the window film.

**AD078** **A**  
**BLACK WINDOW GUIDE FELT 1.5" X 50FT**

As more automotive manufacturers use hard window guides for the door glass, it has become important to install guide felt to guard against the guides scratching the installed film. In two different widths for any installation, this is a must have for any automotive tinter. (Comes in 50' Rolls)

 **follow Zola on facebook**  
[facebook.com/zola.tools](https://facebook.com/zola.tools)

**AD130** **A**  
**GASKET WIZARD TINTING TOOL**

The Gasket Wizard is used by automotive window tinters to pull back gaskets on roll down windows. This allows them to easily slide the film in place and squeegee it out with the gaskets out of the way. Give a set a try today and find out why so many tinters rely on the Gasket Wizard every day.

**AD132** **A**  
**GASKET HOOK TOOL**

This convenient tint tool is a must have for any installer's pouch. The Gasket Hook Tool allows an installer to pull back rubber gaskets on door windows in order to tuck the film below the seal.

**AD157** **A** **F**  
**1/2" X 150' BLACK OUT TAPE**

**AD186** **A**

## 8" ALLOY CIRCLE TEMPLATE TRIANGLE WITH 30 & 60 ANGLES

This 8" alloy circle template features a 30 degree and 60 degree angle as well and 20 different circles from a smallest of 1/32" to the largest of 31/32". This item from Lance will enable you to make the perfect cut every time.

**AD187** **A**

## 12" ALLOY CIRCLE TEMPLATE TRIANGLE WITH 45 & 90 DEGREE ANGLES

This 12" alloy circle template features a 45 degree and 90 degree angle and 26 different circles from a smallest of 1/16" to the largest of 1 3/8". This item from Lance will enable you to make the perfect cut every time.

**AD188** **A**

## WINDSHIELD WIZARD REAR VIEW MIRROR TEMPLATE TOOL

Measuring 18" long, this convenient window tinting tool has 9 modern rear view mirror cut out shapes for precise film trimming and no light gaps.

**AD190** **F**

## FIVE WAY TRIM GUIDE - GRAY (THICK & FLEXIBLE)

**AD190WHITE** **F**

## FIVE WAY TRIM GUIDE - WHITE

**AD190BLACK** **F**

## FIVE WAY TRIM GUIDE - BLACK (HARDEST)

Five Way Trim guides have a 10" edge and are approximately 1/16" thick to enable the tinter to achieve a precise edge gap on flat glass installations. The Five Way Tool is great as a trim guide or wrap it in a paper towel to use it as a bump tool to get water out of your flat glass film.

- GRAY: Thicker and more flexible than either the White or the Black Five Way
- WHITE: Softer than the Black Five Way
- BLACK: Much harder than the White Five Way

**AD182** **A** **F** **W** **P**

## 36" ALLOY STRAIGHT-EDGE RULER

## FS1002T **A** **F**

### CLEAN CUT BOX SLITTER ACCESSORY TRAY

This tray is designed to hold any size Clean Cut Box Slitter and allow you to mount to a ladder for convenient use of the slitter.

## FS1002-36 **A** **F**

## FS1002-48 **A** **F**

## FS1002-60 **A** **F**

## FS1002-72 **A** **F**

### CLEAN CUT BOX SLITTER

A basic alternative to an expensive film slitting machine. This system uses the film box as an integrated part of the slitter. The cutter bar rides the surface of the box with an adjustable magnetic cutting head. In addition, the cutting bar is marked with both metric and imperial measurements to allow quick width adjustments for the cut. All 4 standard film size cutting bars are available. (36", 48", 60" and 72") Cutter head is sold separately.

## FS941 **F**

### 1/8" THICK SHIM FOR 3" FILM HANDLER ROLLER ASSEMBLIES (1 SHIM)

This shim is designed to eliminate side to side film movement during the slitting process. This shim is 1/8" thick and designed to be used with a 3" Roller Assembly on the Film handler window film cutting machine.

## AD191 **A** **F**

### THE EDGE TRIMMING & GASKET TOOL

This innovative trim guide features an angled handle to allow the hand holding the guide to be positioned out of the way of the knife holding, trimming hand. This unique design feature also enables The Edge to be used in automotive tint jobs as an inexpensive way to pull back window gaskets on roll down windows.

## FS940 **F**

### FILM HANDLER REPAIR KIT

This convenient kit comes with the parts most often in need of replacement on a used Film handler. (2 Plastic Washers, 2 Springs, 2 Adjustment Knobs and 1 Brake Screw)

## FS942 **F**

### 1/4" THICK SHIM FOR 3" FILM HANDLER ROLLER ASSEMBLIES (1 SHIM)

This shim is designed to eliminate side to side film movement during the slitting process. This shim is 1/4" thick and designed to be used with a 3" Roller Assembly on the Film handler window film cutting machine.

## FS1002W

### CLEAN CUT BOX WEDGE (PAIR)

The CLEAN CUT BOX WEDGE was designed to "wedge" the roll of film tightly in the box. This is intended to eliminate the side to side play as you pull the film out.

## FS1002CH **F** **W**

### CLEAN CUT BOX SLITTER CUTTER HEAD ASSEMBLY

A basic alternative to an expensive film slitting machine. This system uses the film box as an integrated part of the slitter. The cutter bar rides on the top surface of the box with an adjustable magnetic cutting head. In addition, the cutting bar is marked with both metric and imperial measurements to allow quick width adjustments for the cut. All 4 standard film size cutting bars are available and the cutter head is sold separately.

## FS1002B **F**

### CLEAN CUT REPLACEMENT BLADES-5PK

## EMBLEM REMOVAL TOOL

The fastest and easiest way to remove vehicle emblems and logos from a vehicle. This tool is used before the vehicle wrap of graphic application to remove emblems, logos and badges from your vehicle.

Our Emblem Removal Tool comes with a set of brightly colored custom designed ergonomic handles that are easy to find and very comfortable to use. The handles feature a "loop-lock" no-scratch cutting cord that locks into the handle. The reusable and replaceable cutting cord allows you to cut through the automotive grade adhesives used on vehicle emblems and logos without risk of damaging vehicle paint. Works well on wall removals also.

## ROLLER-1.75 **F**

### ATTACHMENT 1 3/4" WIDE ROLLER APPLICATOR

This roller tool allows the installer to roll the taped edges of the flexible anchoring to provide a smooth, consistent adhesion with no air gaps. This tool comes with a 1.75 inch roller.

## ROLLER-2 **F**

### ATTACHMENT 2" WIDE ROLLER APPLICATOR

This roller tool allows the installer to roll the taped edges of the flexible anchoring to provide a smooth, consistent adhesion with no air gaps. This tool comes with a 2 inch roller. This tool also features a universal threaded handle which enables the use of an extension handle.

## SCRAPER/APPLICATOR **F**

This attachment squeegee applicator allows the installer to apply the appropriate pressure to the taped portion of the attachment in one smooth gliding motion. The ergonomic design along with the specially formed squeegee blade make laying down the attachment a snap.

## AD981 **A** "DO NOT ROLL DOWN" STICKERS (1000 COUNT)

Tired of re-doing side windows that were ruined because a customer rolled the window down too soon? If so, then start using these friendly reminder stickers with each job. Just place one of these stickers over each window switch to remind your customer to wait on the roll down. The stickers feature a low tack adhesive for easy removal by the customer without leaving a sticky residue.

## AD990 **A F W P** 3/8" RED WINDOW FILM TAPE

This handy tape often used by the window film manufacturers as it allows you to tape and re-tape rolls of film closed without leaving any adhesive residue upon removal. This film comes in two convenient widths.

## AD979 **A F** KEVLAR HEAT RESISTANT GLOVES(1 PAIR)

Many window tinters like to work the film with their hands while heat forming. These gloves allow you to work the film with your hands and the heat gun in close proximity by protecting your hands from the heat. (1 Pair)

## CUTTER **F** SAFETY WINDOW FILM ATTACHMENT CUTTING TOOL

This great cutting tool allows you to accurately cut flexible anchoring profile in a variety of ways in order to give a clean installation in the corners. A must have tool for anyone that plans on installing flexible anchoring profiles.

## FIBER APPLICATOR **F**

This urethane attachment application tool allows you to push firmly against the taped edges of flexible anchoring to provide a smooth adhesion down the entire edge. This tool works great for stiffer anchoring systems when more pressure from the tool is desired.

## GSS™ Glass Security Seal Attachment

### GSS-50 **F**

#### (GSS) GLASS SECURITY SEAL (50 FOOT)

The Pentagon Protection Glass Security Seal attachment system integrates the window gasket with the attachment profile. This design increases the strength of the system by further tying the glass, frame and film together. In addition, the integrated gasket allows for perfect alignment of the attachment during install. The GSS comes in two different profiles both in a 50' roll: GSS-R is standard at 1 3/4" wide. This profile looks flat from the exterior; The GSS-F profile is 1 15/16" wide. This attachment is made using a single extrusion TPE that is mated with a 3M high bond tape that is heat applied to the attachment during the manufacturing process for increased bond.

**\*ALL PENTAGON PROTECTION ATTACHMENT SYSTEMS SHIP FROM OUR CALIFORNIA WAREHOUSE, CALL FOR PRICING\***

## PWS-SM50

ADVANCED ELITE SMALL (50' ROLL)

## PWS-SM100

ADVANCED ELITE SMALL (100' ROLL)

The Pentagon Protection Advanced Elite Small (PWS-SM) attachment system comes in a narrow size for windows that do not have a large enough set-back for a standard attachment system to adhere without hanging over the inner frame. The PWS-SM comes in both a 50' or 100' roll and measures 1 3/8" (32mm) wide. The flexible membrane between the tape measures 1/8" wide. This attachment is made using a single extrusion TPE that is mated with a 3M high bond tape that is heat applied to the attachment during the manufacturing process for increased bond.

## PWS-S50

ADVANCED ELITE STANDARD (50' ROLL)

## PWS-S100

ADVANCED ELITE STANDARD (100' ROLL)

The Pentagon Protection Advanced Elite Standard (PWS-S) attachment system comes in a great size for standard windows. Large enough to fit over most gasket systems, the slimmer line profile offers an aesthetically pleasing system that gets the job done. The PWS-S comes in both a 50' or 100' roll and measures 1 5/8" (42mm) wide. The flexible membrane between the tape measures 3/8" wide. This attachment is made using a single extrusion TPE that is mated with a 3M high bond tape that is heat applied to the attachment during the manufacturing process for increased bond.

## PWS-L50

ADVANCED ELITE LARGE (50' ROLL)

## PWS-L100

ADVANCED ELITE LARGE (100' ROLL)

The Pentagon Protection Advanced Elite Large (PWS-L) attachment system is wider to allow firm attachment on larger frame insets or on window units where the gaskets are larger. The PWS-L comes in both a 50' or 100' roll and measures 1 15/16" (48mm) wide. The flexible membrane between the tape measures 1/2" wide. This attachment is made using a single extrusion TPE that is mated with a 3M high bond tape that is heat applied to the attachment during the manufacturing process for increased bond.

**P** Paint Protection Film

## Z-LOK-45 **F**

ALL FLEXIBLE 45 DEGREE Z-LOK (40' ROLL)

The All Flexible Z-Lok is the only effective attachment system for doors. The main issue with doorways is that you must attach the film and glass to the actual door frame, not the stops. Many attachment profiles or adhesives only serve to adhere the glass and film to the stops. When the glass is impacted, the stops pull out and the system fails. All Flexible Z-Lok is large enough that it goes beyond the window stops to adhere to the door frame. This is the only way to have an effective attached system on a doorway. The Z-Lok products come in a convenient 40' roll which is enough to do a 4-sided attachment on two standard doors. The All Flexible Z-LOK-45 is for use on doors with an angled stop. The Z-LOK-90 is for use on doors with a square stop making a 90 degree angle.

The total width of the Z-LOK-45 attachment is 2 1/2" (64mm). The flexible interior panel between the tape measures 1 1/4" wide.

The total width of the Z-LOK-90 attachment is 2 7/8" (71mm). The flexible interior panel between the tape measures 7/8" wide.

These attachments are made using a single extrusion TPE that is mated with a 3M high bond tape that is heat applied to the attachment during the manufacturing process for increased bond.

**CH1036** **A** **F** **W** **P**  
**SIMPLE PINK ADHESIVE REMOVER**

Window Film industry standard for removing adhesive left behind after a window tint removal. When you have a tough job to clean up, Simple Pink comes through every time!

**CH2320** **A** **F** **W** **P**  
**ATR ADHESIVE REMOVER**

ATR ADHESIVE SOLUTION is a super action adhesive remover that is the most powerful in its class! Dissolves adhesive on contact.

ATR's industrial strength is formulated for most tough adhesive removal jobs. The solution contains no alcohol, ammonia or harsh abrasives but still cuts through the adhesive and thereby reduces the removal time.

ATR is made in the USA and can be safely shipped anywhere.

**CHTO** **A** **F**  
**Tint-Off 1 qt.**

Specially formulated for the window film industry, TINT-OFF lets you remove window film without the hassles of regular window film removers. No messy dyes to stain interiors. No toxic ammonia to burn your eyes. It's so safe you can use it inside the vehicle for quick and easy turn-around times. Worried about damaging rear window defrosters? TINT-OFF is so gentle it removes the film without scraping, minimizing risk to delicate defrosters.

**CH1041** **A** **F** **W** **P**  
**30 OZ. RAPID TAC 2**

Rapid Tac 2 is an adhesive promoter that increases the bond of the adhesive on window films and vinyl. This solution is commonly used to get window tint to adhere to the dot matrix areas of automotive glass.

**CH1039** **A** **F** **W** **P**  
**32 OZ. RAPID REMOVER**

**CH1040** **A** **F** **W** **P**

**1 GALLON RAPID REMOVER**

This rapid window tint adhesive removal solution begins working to soften the adhesive in 60 seconds to ensure very little scraping.

**CH2321** **F** **W**  
**1 GALLON RAPID PREP**

For cleaning or pre-cleaning, Rapid Prep is a non-hazardous wash solvent that removes wax, grease, oil and silicone. Use Rapid Prep to clean the surface of your sign panels, car or truck before you apply paint or vinyl. Rapid Prep is designed for the removal of silicones, waxes, oils, road tars and other contaminants from surfaces being prepared for painting or for the application of vinyl graphics.

**CH733** **A** **F**  
**32 OZ. DIRT-OFF CONCENTRATE**

Great product for cleaning the glass prior to the application of film. This will not only clean the surface of the glass, but help to remove contaminants from the pores of the glass to give you a perfectly prepped surface.

**CH1035** **A** **F**  
**1 GALLON BLUE SLIP UP MOUNTING SOLUTION**

Great window film mounting solution that enables you to tackle those difficult window tinting jobs.

**CH2013** **A** **F**  
**1 GALLON TINT SLIME**

**CH2013B** **A** **F**  
**32 OZ. TINT SLIME**

TintSlime is a window film mounting solution that was specifically designed by a tinter, for tinters. This product is made in the USA.

What makes TintSlime so special? TintSlime works great on all pressure sensitive adhesive window films. The gallon size TintSlime makes 128 gallons of mounting solution; that is roughly 45% more than other available mounting solutions.

- NO harsh chemicals or unnecessary ingredients
- Works with you to provide slip when needed, but tacks on demand
- Great apple scent
- Safe on interiors and biodegradable

Directions: Add one oz. of TintSlime per gallon of water. Shake well. For best results, use filtered water.

**CH1034** **A**  
**32 OZ. DOT DEVIL**

Dot Devil is a terrific solution to assist in getting window film to stick to the dot matrix area of automotive glass.

 **follow Zola on facebook**  
[facebook.com/zola.tools](http://facebook.com/zola.tools)

**CH714** **A** **F**  
**1 GALLON X-100 MOUNTING SOLUTION**

The preferred mounting solution for any window film with a CDF adhesive. This solution will assist the window film in setting up sooner and help eliminate curling corners. **(This mounting solution is not approved for bronze colored window films).**

**CH735** **A** **F**  
**32 OZ. FILM-ON CONCENTRATE**

This is simply the best mounting solution that money can buy. Made from the surfactant (slip agent) of baby shampoo with all of the potentially damaging dyes and perfumes removed. Get all of the slip you desire with much less risk of staining curtains, interior panels, etc.

**CH716** **A** **F**  
**7 OZ. PLEXUS POLISH**

Great product to bring the new finish back to any plastic surface including window films. This product also is ideal for a final wipe down of window tint after the installation is complete. The polish helps cover micro-scratching and leaves a protective, anti-static coating on the treated surface. (Aerosol Product. No Air Freight).

**MT962** **A** **F**  
**GLASS & FILM SALES DEMONSTRATION LAMP**

**MT1014** **A** **F**  
**GLASS & FILM SALES DEMONSTRATION LAMP (EXTRA BULB)**

The glass and film sales demonstration lamp is a great tool for explaining and displaying the different options available in tempered glass and glass films. Use along with the UV meter, spectrum detector and non-contact thermometer to offer a direct comparison between options.

\*\* Glass Sample Set not included \*\*

**Place your order toll free  
 866-994-7060 or online

**MT974SOFT** **A** **F**  
**EDM PROFESSIONAL METER DEMONSTRATION KIT WITH SOFT CASE**

This EDM Professional kit offers a single source for convenient and convincing sales demonstrations. The kit includes locations for glass samples, digital meters, lamps, product literature & more. This kit comes fully equipped to show your customers performance numbers they can understand. Using our simple EDM Solar Transmission (MT968) and EDM UV Transmission (MT973) meters. This demonstration kit will help close sales because it shows the customer the performance benefits of window film versus standard glass. This kit includes an EDM SP2065 Solar Transmission & BTU Power Meter, a Heat Lamp Demonstration Unit, an EDM UV Sentry Meter, and UV Demonstration Light. Many customers add popular optional items to the kit like the Glass Demonstration Sample Set and the Raytek Non-Contact Laser Thermometer (shown in picture).

**MT976** **A** **F**  
**EDTM GLASS DEMONSTRATION SAMPLE SET**

Conduct your sales demonstrations more effectively by showing the performance of a given window both with and without film installed. (Includes 2 clear single pane, 2 clear insulated glass panels and 2 clear Low-E panels)

**MT969** **A** **F**  
**MERLIN LAZER TOUGHENED GLASS INDICATOR**

The Merlin Lazer can be used to determine if any of the panes of glass tested have been strengthened. This is critical knowledge for determining which films are safe for application.

Place your order online [www.ZOLATOOLS.com](http://www.ZOLATOOLS.com) or call 866-994-7060

**MT978** **F**  
**DIGITAL NON CONTACT THERMOMETER  
 W/ LASER POINTER**

NEW Our Digital Non-contact Thermometer offers a simple method for illustrating the need for your high performance window films. For in-home demonstrations, you can measure the extreme temperature of furnishings near a window to illustrate the poor performance of their windows without film. This is an extremely effective and convincing sales tool. Easily switches to display in either Celsius or Fahrenheit.

Includes a laser pointer to better illustrate the exact surface location being tested.

 BEFORE 2:30 PM EST**

**MT992** **A** **F**  
**TINT METER FOR ROLL DOWN WINDOWS**

This meter can be used to measure visual light transmission on most roll down windows. Just slide the meter over the edge of the glass for a fast vlt reading through the glass.

**MT982** **A** **F**  
**EDTM SD2400 SPECTRUM  
 DETECTIVE METER**

Finally! The EDTM SD2400 Spectrum Detective allows you to effortlessly demonstrate 3 window performance characteristics at a time: UV, Visible, and Infrared transmission values for your window films. NO POWER CORDS & NO LIGHT SOURCES NEEDED! The Spectrum Detective shows your customer performance numbers they can understand and proves to them that your window films is worth their investment. Lets face it, when it comes to window film performance, numbers don't lie. This tool has the power to make a poor salesperson look like a genius, and when a good salesperson gets their hands on a tool like this... Well, its almost unfair.

**MT961** **F**  
**MIG MANUAL IG THICKNESS GAUGE**

This thickness gauge measures the thickness of glass and air spaces of assembled and installed windows. The MG1500 uses the laser reflections from the surface of a window to display the thickness measurements on a graduated scale. This gauge is particularly handy for measuring triple-glazed windows and laminated glass. With a little training, the MG1500 can even be used to determine the presence of reflective coatings such as soft-coat Low E, mirrored surfaces, and even self-clean coatings.

## MT2324C **F** HEAT SHEET TEMPERATURE CARD

## MT2324 **F** ACRYLIC STAND FOR HEAT SHEET

The "HEAT-SHEET" Temperature Demo Card vibrantly changes color when it encounters heat. To demonstrate the heat-blocking capabilities of your film, use the Demonstration Card in combination with a HEAT LAMP.

The demonstration shows a dynamic color change in front of an inefficient window sample while no color change occurs when placed in front of your energy efficient window film. The demonstration shows your customers that your window film will reduce heat transfer that occurs as a result of radiant energy, conduction and convection.

## MT993 **A** **F** LASER LABS M200 TINT METER FOR FIXED WINDOWS

This Laser Labs two-piece meter will measure visual light transmission on fixed windows. Great for determining the vlt numbers on windshields and back glass of an automobile.

## MT963 **F** UV DEMONSTRATION LAMP

Offering the perfect compliment to our UV Transmission Meters, the UV Demonstration Lamp allows you to conduct DYNAMIC sales presentations indoors in front of your customers. UV energy levels inside many homes are not sufficient to conduct convincing demonstrations, unless you are operating next to a window on a bright sunny day. Unfortunately your sales staff cannot control the weather. The compact design of this UV lamp allows you to conveniently set up presentations in any environment. The lamp is battery operated (4AA-included) and outputs true UV energy centered at 365nm. This low cost accessory is a true necessity for an effective presentation.

## MT963B **F** UV DEMONSTRATION LAMP(EXTRA BULB)

Automotive Window Film

Flat Glass

Vehicle Wraps

Paint Protection Film

**MT967** **A** **F**  
**EDTM SP1065 DIGITAL BTU METER**

Demonstrate window film's solar reduction performance. The ability to block SOLAR energy is a key performance criteria for window film. Implement the EDM SP1065 DIGITAL BTU Solar Meter into your sales presentation and educate your customer on the solar performance of your window films. The SP1065 is a durable and compact meter that has excellent resolution. The meter is powered by a 9 volt battery and includes a digital display that shows continual solar measurements. The meter is extremely simple to use; just turn on the meter and start taking readings. There are no cumbersome adjustments needed. You can take readings using the sun, or for indoor settings you can use our Heat Lamp Demonstration Kit MT962.

**MT968** **A** **F**  
**EDTM SP2065 DIGITAL BTU & SOLAR TRANSMISSION METER**

Increase sales by improving the quality of your sales presentation. Bring your window films performance to life in front of your customer, by incorporating the EDM SP2065 Solar Transmission & Power Meter into your sales pitch. The SP2065 meter is extremely simple to use and allows you to demonstrate the solar transmission percentage of your window film product. Talk to your customer in a simple language they can understand: Solar Transmission Percentages. By doing so, you will quickly win your customer's confidence in your product. For those customers who prefer to deal with BTU measurements, the SP2065 meter can be switched into BTU mode as well, to measure incident solar energy. Simply press the red toggle button and you now have TWO meters in ONE!! This meter can even be used to measure approximate Solar Heat Gain Coefficient (SHGC) values.

**MT966** **A** **F**  
**EDTM VP1165 VISIBLE LIGHT TRANSMISSION & POWER METER**

Unlike many competing products, the EDM VP1165 measures the FULL visible light spectrum (400 to 700 nm). Glare from computer monitors is a major cause of eyestrain in the office and home environment. Reducing visible light transmission through windows can greatly reduce this common ailment. The VP1165 meter can be used for evaluating the tint of windows, films and other transparent materials. The digital display is continually updated with real-time readings, allowing the user to take readings continuously. The VP1165 is powered by a 9 volt battery (included), and uses an end-mount sensor to take measurements.

**Place your order toll free  
 866-994-7060 or online  
[www.ZolaTools.com](http://www.ZolaTools.com)**

## MT964 **F**

### UV TRANSMISSION & POWER METER

Highlight the UV performance of your window film by showing how it blocks the damaging UV rays. The UV Transmission & Power Meter can measure incident UV energy or calculate the actual UV transmission percentage through a window or film. The UV power feature is helpful for analyzing existing structures for incident UV energy. Great for testing critical indoor settings like museums or fine homes. Using the UV Transmission feature, prove to your customer that your product is blocking a large portion of the sun's UV energy and protecting their furnishings from damage and fading. GREAT for installations that use high performance window film.

## MT973 **A** **F**

### EDTM UV1265 UV SENTRY TRANSMISSION METER

The EDTM UV1265 Meter is probably the simplest meter available for measuring the amount of UV that is transmitted through a transparent material. The meter measure has a huge linear range and measures to 0.1% transmission. The unit has been designed to be used by anyone in sales, field applications or the factory. The digital display is continually updated with real-time readings. Make an IMPACT with your sales presentations by illustrating the UV blocking capabilities of your product. Convincingly answer questions for that doubting customer. The UV1265 is powered by a 9 volt battery (included). The digital "UV SENTRY" is the perfect tool for demonstrating the UV blocking capabilities of window film. The UV Sentry is able to calculate the actual UV Transmission percentage associated with a window film. The UV1265 may be used to measure the UV characteristics of glass, film, coatings, laminates, or other materials. Use this meter to create CONVINCING sales presentations. The UV Sentry can promote your UV blocking products effectively.

## MT960 **A** **F**

### EDTM AE1601 ETEKT GLASS LOW-E COATING DETECTOR

Detect Invisible Low E Coatings on Double Pane Windows From a Single Side The ETEKT + has been serving an important role for glaziers worldwide for nearly 20 years: locate invisible Low-E coatings on IG units with a definitive, non-destructive test. With the release of the EDTM AE1601 (second generation ETEKT+), we've made some improvements to the reliability and temperature stability of the meter without compromising the features our customers have grown to love. This NEW ETEKT + allows you to confirm the invisible Low E coating is properly installed into your double pane IG units with a single test from a single side. You can also test a triple pane window by testing both sides of the window.

### EVERY STARTER KIT

Avery Dennison's Installation Starter kit includes everything you need to achieve professional end results no matter what application. Included in the kit are:

- 1 x Tool Belt - To keep all your tools in this specially-designed waist belt. Designed by professional applicators.
- 2 x Avery Wrap Gloves - A soft, seamless, cotton, application glove with anti-static properties and excellent friction resistance help smooth graphics over the application surface and into curves and recesses.
- 1 x Avery Blue Felt Squeegee - A blue nylon reinforced squeegee with a black felt edge that will not scratch or mar the surface of digital prints or specialty vinyl. The perfect tool for flat or lightly curved surfaces.
- 2 X Avery Magnets - Magnets are a great aid to holding and positioning graphics on a substrate. Strong magnetic pull can replace application tape.
- 1 x Avery 30 degree knife - A strong, durable metal casing, holding 30° angled breakaway blades for accurate cutting.
- 1 x Snitty Vinyl Cutter - Snitty vinyl cutter is a mini-slitting tool. Handy for cutting self-adhesive material.

**HC2300**

### WET EDGE SQUEEGEE

Zola Distributing now carries the Wet-Edge Ultra Suede Teflon Squeegee!

Wrap your vehicles faster and better. The only squeegee applicator made to use wet. No scratches, no marks, just smooth motions that easily glides across vinyl films and painted surfaces without worry of mistakes or damage. The WetEdge Squeegee is a Teflon squeegee with a unique microfiber edge bonded to it. Can be used either wet or dry. This is the top of the line applicator in the business!

The Benefits of a Wet Edge Ultra Suede Teflon Squeegee:

- Teflon edge glides and cuts across media easier than the standard squeegee.
- By applying water to the Wet Edge side, it allows squeegee to glide over media without scratching laminate. It also reduces friction.
- Wet Edge material goes all the way to edge of squeegee to allow installation in tight areas. We use this almost like a paint brush.
- Helps when laying die cut or cut vinyl to vehicles without scratching painted surfaces.

**Z1059**

### EVERY FELT CARD

A white felt squeegee designed for flat or lightly curved surfaces for medium and low pressure applications. This felt card is best used for highly contoured areas where hard squeegees don't conform. This card should not be used for the entire application because it doesn't allow for enough pressure on the film which usually results in bubbles that appear a day or so after the application.

**Z1072**

### EVERY GLOVE

This glove is a soft, seamless cotton application glove with anti-static properties and excellent friction resistance to help smooth graphics over the application surface and into curves and recesses.

**CB2620001**

## EVERY FLEXTREME

The FleXtreme is a micro-squeegee that is specifically designed for vinyl graphics applications. The blue (harder) FleXtreme is designed to apply film at narrow curves and edges, to ensure seamless application. The red (flexible) FleXtreme is an ideal tool to support film application in narrow, concave parts of a car.

**Z1071**

## EVERY RED FELT SQUEEGEE

This red squeegee is a softer, more flexible squeegee with a felt edge that will not scratch or mar the surface of digital prints or specialty vinyl. This squeegee is ideal for 3D applications, deep corrugations and curved applications like pillars and car bumpers.

**Z1058**

## EVERY BLUE FELT SQUEEGEE

The Avery Blue Felt squeegee is a blue nylon reinforced squeegee with a black felt edge that will not scratch or mar the surface of digital prints or specialty vinyl. This is the perfect tool for flat or lightly curved surfaces.

**AD1000X**

## 1000 WATT IRIIDIUM HIGH INTENSITY SPOT HEAT UNIT

For use:  
Vehicle Wraps  
Restyling  
Color Change Applications

18" Head  
20 lbs  
Vertical + Horizontal  
Up + Down  
Instant on heat  
1000 Watts Halogen  
Short Wave Unit  
Rolling Stand

**Z1074**

## AIR RELEASE PEN

Sharp retractable air release pin in a handy pen design. Ideal for releasing trapped air and eliminating bubbles during application.

**HC2308**

## BUFFER STRIP (QTY 10)

Give your hard plastic squeegees a soft side with a pre-cut buffer! These buffer strips fit a standard 4" squeegee and they do not scratch! They are self adhesive and for use on flat surfaces.

## **Nano-Fusion®** *Paint Protection Film*

Looking to expand your offerings and grow your business? Zola Tools' partner, Service Group Distribution, offers a monthly training course in Paint Protection Film installation. Join us in the southern-California facility and learn the tricks of the trade from one of the industry's best PPF installers.

This three-day course (running 9:00 a.m. to 4:00 p.m.) focuses on installation techniques and recommended business practices for optimizing the sales potential of Paint Protection Film. The class features hands-on learning with attendees practicing on some of the most difficult hoods, bumpers and headlights on the market.

The beginning part of the first day in training is spent with an overview of the product history and where the market is today. Students are introduced to pattern software to enable them to pre-cut patterns for any specific make and model of vehicles. The second portion of the morning is spent on the set up and use of plotters to cut pre-cut kits.

For the remaining two and a half days of training, all students spend hands-on time installing film on a variety of different hoods, fenders, mirrors and bumpers. Installation surfaces range from the basic to the most complex vehicle curvatures on the market. A portion of the class time will focus on bulk installation techniques as well as trimming and scoring of the film while on the vehicle; an important skill that installers need to master. At the conclusion of the course, attendees will receive a certificate of completion.

The cost of the three day training class is \$250\* per student with group discounts available. All materials are provided by Service Group Distribution during the course, as is lunch. Call 866-320-7150 to reserve your spot in one today!

Vehicle Wraps

Paint Protection Film

Vehicle Wrapping is exploding in popularity. Automotive restylers nationwide can't keep up with the increasing demand for wrap jobs. Get in on this lucrative trade. Don't wait! Sign up for SGD's one day training class in southern California today.

The very popular Avery Supreme Wrapping Film training class is a one-day course that includes hands on learning. In the first segment of the class students get a background on Avery Dennison and the details of their Supreme Wrapping Film. Avery's Easy Apply RS Technology allows for easy and quick adjustments in positioning. This technology is covered and hands-on time is spent with each individual student trying out sample pieces on a vehicle. Other areas covered in the training include:

- Adhesive/Channels
- Adjustability
- Hoods/Fenders/Doors
- Heat vs Stretch
- Mirrors/Bumpers/Tape/Seams
- Trim vs Tape

In the second half of the day (after the provided lunch), students install large pieces of film on staged vehicles and learn the tricks from the certified Avery training team.

The cost of the training class is \$250\* per student with group discounts available. All materials are provided by Service Group Distribution during the course, as is lunch. Call 866-320-7150 to reserve your spot today!
